Catholic Charities Leland House is a comprehensive care residence for formerly homeless adults living with disabling HIV/AIDS. Leland House is a licensed Residential Care Facility for the Chronically Ill offering medication management, RN and psycho-social care coordination, emotional support services, dietary services and meals, activities, socialization opportunities, and links to other community resources.

Leland House minimizes the use of hospital emergency rooms, crisis services, and other publicly-funded health systems by offering triage for most problems on-site. Collaboration with other HIV providers in the county ensures that residents have all their needs met whether they are medical, psycho-social, vocational, psychiatric, or spiritual.
