

ADULT DAY SERVICES SAN FRANCISCO

2018 YEAR-END IMPACT REPORT

Impact Report data from July 2017 through June 2018

WE BELIEVE

IF we provide seniors and adults with disabilities experiencing cognitive and physical impairments, a set of daily activities; and provide their caregivers with respite, education, and support

THEN the seniors and adults with disabilities will optimize their physical, emotional, and cognitive health and remain in the community longer while decreasing their caregiver's stress.

OUTPUTS

50 Clients Served

498 Counseling Hours

1,436 Caregivers Assisted

OUTCOMES

These results are based on the Caregiver Stress Assessment and the Caregiver Satisfaction Survey.

caregivers report that increased socialization alleviated feelings of isolation of their loved one

caregivers would recommend the program to someone in similar need

caregivers' stress levels decreased and well-being improved

ADULT DAY SERVICES SAN FRANCISCO

AGING SUPPORT SERVICES

Services and financial data for July 2017 through June 2018

ABOUT

Catholic Charities Adult Day Services San Francisco and the Alzheimer's Day Care Resource Center is a licensed program that provides a safe, therapeutic and friendly environment for older adults and support for family caregivers in San Francisco County since 1991. The program is designed to enhance the participants' quality of life and increase their independence. Seniors and adults with disabilities who experience losses in physical function, memory or social support enjoy safe, fun and stimulating activities aimed at socialization, mental and physical stimulation in a supervised, recreational environment while family members are afforded much needed relief from their daily caregiving responsibilities.

Alzheimer's Day Care Resource Center is co-located within our licensed Adult Day Program, and has a trained team that specializes in serving people who are facing middle-to-late stage Alzheimer's disease and require full-time supervision and assistance with daily activities.

SERVICES

- Activities tailored to meet the level of cognitive function for all seniors and adults with disabilities
- Hot nutritious lunches and snacks
- Personal care assistance
- Extended care early morning or afternoon outside of daily programming hours
- Caregiver respite, guidance, information, and referral

CHANGE MODEL

The Need

Seniors living in the community are experiencing:

- Frail health
- Cognitive impairments
- Depression and isolation
- Caregiver stress

Our Response

- A safe, clean, and welcoming environment
- Daily health monitoring
- Cognitive enrichment activities
- Nutritious meals
- Caregiver education and support

Client Outcomes

- Maximized physical health
- Improved and maintained emotional health
- Optimized cognitive health
- Reduced caregiver stress
- Enhanced quality of life
- Increased independence

Community Impact

- Seniors live with dignity in community as long as possible
- Decreased need for expensive institutional alternatives like skilled nursing facilities
- Increased productivity of adults and caregivers
